

Sculpture Exhibition Site Information

The dedicated site for the Sculpture Garden is located down from the main flower showgrounds. To access the exhibition area there are concrete steps that run straight down the middle, crossed with a ramp that zig zags down with a gradual incline – this ramp is 1.9 metres wide. The oval shaped section is framed by bush consisting mainly of tussocks and flax. This tranquil scene will be a welcome respite for visitors, where they can appreciate the sculptures in a more natural setting.

The majority of sculptures will be located here, with selected works being placed throughout the flower show. The exhibition will be manned for the duration of the show for sales and queries in regards to the artworks.
